

Testimonial - NYS Corporate

Following the completion of a Selling and Negotiation Skills training programme for approximately 30 members of staff I am pleased to say that I am extremely happy with the work carried out by Mick Prescott of West End Training.

Not only has Mick delivered bespoke training according to the brief set out to him, he has created a motivational “buzz” within the office through his interactive style of tutoring. Feedback from staff returning from the course has been very positive.

We will be using the services of West End Training again in the near future and I would have no hesitation in recommending the services of Mick Prescott and West End Training to other organisations.
